

- Subject: Exchange of the existing Saprisa rectifier / voltage regulator against a new regulator, type GR 4.
- Effectivity type: DG Single Seaters
variants: DG-400
- Accomplishment : Optional, when replacing a defective regulator.
- Reason : The Saprisa regulator as described in TN 826-33 is no longer available. This regulator has previously been used in DG-400 powered gliders. If a defective regulator is due for replacement, the regulator GR 4 will be installed instead.
- Instructions : Install the regulator GR 4 according to installation instructions TN DG-SS-03 FE-33-01.
- Material : installation instructions TM DG-SS-03 FE-33-01
wiring diagram 4 E 033
regulator GR 4 with wiring and filter
2 bolts M5x10 DIN931-8.8 zn
2 washers 5.3 DIN9021
Loctite 243
- Weight and balance : Influence negligible.
- Remarks : EASA countries: The actions have to be performed according to the regulations of the Part M in an approved maintenance organisation and released according to M.A.801.
- Non EASA countries: The actions have to be performed in a licensed workshop. All instructions are to be inspected and entered in the aircraft logs by a licensed inspector.
- If you have any questions concerning this TN please contact DG Flugzeugbau: Tel.: 0049 7251 3020-0, e-mail: dg@dg-flugzeugbau.de
