

## Notes for TN800/42, 500/06

1. Some owners shipped the DEI instead of the control unit to DG for modification.  
To avoid this error please regard the photo ( sample for DG-800):

2. Custom clearance for non EU residents  
To avoid unnecessarily high import fees in Germany please ship the control unit with a pro forma invoice according to the sample on the next page.  
Of course you may fill and use this sample directly.

**Please attach the pro forma invoice on the outside of the parcel and include another copy in the parcel. Thank you.**
