←means title = name of variant, Note: for the initial issues the title is always the name of the variant.

The italicized initial issues are not up to date and only valid with the revisions.

With Dec. 2009 revisions, manuals of variants have been combined and the title was changed

*Note: If TN DG-G-16 (electronic G-meter) has not been executed, the revision is one number lower and issue is Dec. 2023 (DG-300, DG-500, all variants)
